DEVICE ADAPTER

PC ADAPTER

Docking Base

The package includes:
CD, PC Adapter, DisplayDock (Device Adapter + Docking Base), and power supply.
2

Insert the CD and install software drivers (A new gray icon appears in system tray🔘).

3
PC ADAPTER

Plug the PC Adapter to a USB port on your PC (Tray icon turns red🔘).

4

For vertical mounting:
Place the DisplayDock on a vertical surface (rear side of monitor, wall).

5

1
3
2

For table top positioning:
1. Remove Device Adapter from Docking Base.
2. Slide shutter to show top USB port.
3. Re-attach Device Adapter.

6
Connect the DisplayDock to your monitor, speakers, keyboard and mouse. Connect the power cable (Tray icon turns green🔘, display icon is on 🖥). You're done!

## Quick Tips for Best Performance
Playing video from your PC?
1. Use Extend Mode, and limit the extended screen resolution to 720p (1280x720).
2. If available it is recommended to use Optimize for Video Mode.
